The stockholders of the Valley Railroad met in Cleveland, O., Wednesday, and elected three new directors. It is given out unofficially that the road has been sold to a New York synilicate, including Andrew Carnerie, of Pittsburg, and that it will be extended by the purchase of other lines to Pittsburg from Canton, thus making it a competitor of the Cleveland and Pittsburg. Ultimately the object is said to be to reach the sealoard by the South Pennsylvania. The Valley extends from Cleveland to Valley Junction, south and east finety-one miles. To Reach the Scaboard.

The Grand Trunk's Traffic,

The Interstate Commerce Commission yesterday promulgated its decision in the matter of an investigation into the acts and doings of the Grand Trunk Railway of Canada. It holds that the commission has jurisdiction over traffic from points in the United States to a place in an adjacent foreign country; that the road in question must comply with such regulations as are imposed upon other roads in regard to posting schedules, etc., of rates and fares, and that the road has been violating the regulations in the carriage of coal and coke.

Bell Telephone Company Projects.

The hearing on the petition of the American Bell Telephone Company for an increase of \$10,000.000 in its capital stock was filed at the State House, in Boston, yesterday, George D. Brooks appeared as counsel for the company. He stated that the company has 721 exchanges established, uses 170,000 miles of wire and the average number of daily messages is 1,050,000. The new capital is wanted mainly to build the new long distance system. Up to January 1, 1889, this system has cost \$3,337,856. The line from Boston to New York cost \$633,795. During the next four years it is intended to build a double line from Boston to Chicago, at a cost of \$10,000,000. The new building in Boston will cost \$800,000 when completed. at a cost of \$10,000,000. The new building in Boston will cost \$800,000 when completed in the next two years \$2,000,000 of bond will have to be paid and the company is going to expend this year \$900,000 on a line from Providence to Washington. Colonel H. W. Forbes explained the necessity of implicate lines, and said the company is the next four years will need over \$10,000,000 in the construction of new lines, mostly 500 in the construction of new lines, mostly con the long distance system. Mesers. F on the long distance system. Mesers. I M. Weld, E. J. Hall, jr., and H. J. Higgi son also advocated the petition.

Mary Anderson's Latest Engagement Mary Anderson's Latest Engagement, it is insisted in usually well-informed dramatic circles that Miss Mary Anderson intends to wed her manager, Charles J. For some years he has drawn and accounted for Miss Anderson's share of the receipts with rigid accuracy, and the lady is, no doubt, convinced of his absolute honesty.—[Louisville (Ky.) Post.

meral Exedus to the Paris Exhibi tion-Visitors from South America.

General Exedus to the Paris Exhibition—Visitors from South America.

A New York Evening Sus reporter happened to meet yesterilay in one of the down town hotels a party of Brazilians who are going to stop here a few days to see the sights of the metropolis and then embark for France on the steamship La Champagne on Saturday next.

"You cannot imagine," said one of the bronze faced gentlemen, "lie crowds which are preparing to visit Far's this summer from the whole of South and Central America. We traveled here with representatives of marry every section of the Southern Republies, and they were all of the opinion that it is to be a general exodus of the mest wealthy and influential citizens of those far away commonwealths."

A gentleman from Ecuador went as far as to say that in the principal cities of his country no body would be found in July but the children and their murses, outside of the Government officials and employes and the regular troops of the Republic. If the United States, Mexico and Canada are to send a proportionate number of visitors, I wonder how Paris shall be able to accommodate such an influx from the New World. That cannot fall to give the skeptical Parisians a proper idea of what an immense and wealthy world we have become during the last thirty years.

"They began to realize it a few moments

wealthy world we have become during the last thirty years.

"They began to realize it a few moments ago," continued the speaker, "when applications for immense tracts of ground fell thick upon the exhibition committee from South America. The space asked for was, in reality, three times greater than for the exhibition of 1878. Room began soon to grow scarce in the large edifice on the Champ de Mars, and South American governments were notified of the fact. The committee warned them that to accommodate all the petitioners the gardens would

ernments were notified of the fact. The committee warned them that to accommodate all the petitioners the gardens would have to be invaded and special pavilions built for their use, and at their own expense. All the governments, far from complaining of this ultimatum, raised at once the necessary money and vied with one another in generosity and even lavishness, in order to give the new construction a truly orginal character.

"And so it was that to-day, near the wonderful Tower Eiffel and on the Champ de Mars side of the bridge, lena, quite a new city, has been built, which is entirely American in conception and grandeur. Pictureque pavilions, palaces, kiosques and houses of a peculiar architecture are grouped at the cost of millions of dollars, and the best French decorators, artists and hallders were employed in that wonderful apringing up of American marvels, among which I am told by friends who recently came back from Paris, your Corn Palace is one of the most admired of all.

"Next comes the Temple of the Mexican Republic, a most curious monument which revives historical constructions of the Aztecs period. The Republic of Ecuador will exhibit its products in an Inca temple, which, although less imposing in dimensions, is a faithful reproduction of the various architectural collections now in the Museum of the Trocaders.

"Yenezuela has chosen the Louis XV. style, of which Spaniards and the Jesuits left so many remarkable specimens in South America. It is a small palace, rather overloaded with sculptural works, but of a charming variety of form and details, with very pretty windows, a fine door which recalis that of the Cathedral of Caracas, and a pleturesque corner pavilion which most happily completes a very successful en

"The pavilion of Guatemela is the gayes
looking of all, with its red woodwork and
its blue earthenware, while that of Nicaregua presents an amusing roof and walls
all covered up with bamboo canes of a de
lightful effect. Hayti has a small but grace

master-pieces of the decorative arts, and
their domes, cupolas, campaniles and terraces form one of the prettiest eights which
can be imagined."

George Coleman Fined in the Police Court.

The property dispute over a house at Pierce street and New Jersey avenue between Alfred Beall and Joseph Ward, colored, was brought to Police Court to-day, and George Coleman was fined \$10 fer throwing stones. Ward was a tenant, whose lease had expired, and when he was compelled to leave the place he tried to tear the house down and take it with him. A small riot grew out of the affair.

Alfred Beall applied to the prosecuting attorney for a warrant, charging Ware with destroying private property. As the title to the property was in dispute a warrant was refused, the prosecuting attorney in the property was not the proper forum to try disputed titles and determine ownership to property. Mr. Beall, not being satisfied with such disposition of his complaint, obtained a warrant from a justice of the peace, and had Ware arrested. When brought to the attention of the prosecuting attorney this morning it was promptly dismissed.

John Morrill and Sam Wise played their first game with the Washington nine yesterday and greatly pleased the meagre attendance. Morrill occupied third, and Wise filled his old place at short. With Carney at first and Myers at second we had the finest in-field ever presented by Washington. Morrill accepted seven out of eight chances, and Wise all three that were offered. Sam also hit safely three times, but Morrill's were all captured. Washington's opponents were the Syracuse Stars, last year's champions of the International League, but the locals had no trouble in defeating them.
